Dear Prime Minister Harper,

I want Canada to play a constructive and fair role in working for peace between Palestinians and Israelis, based on the application of international law.

Your government's policy says that, *"Israeli settlements in the occupied territories are a violation of the Fourth Geneva Convention. The settlements also constitute a serious obstacle to achieving a comprehensive, just and lasting peace."*

Why then is Canada supporting settlement growth by allowing the importing of settlement products like **SodaStream** and **Ahava** and giving them tariff-free status under the Canada-Israel Free Trade Agreement?

I ask that Canada exclude settlement products from its free trade agreement with Israel, as the European Union does. This will be a positive contribution to peace.

Sincerely,
